*One unit of phytase activity (FTU) is defined as the quantity of enzyme which liberates 1 micro mole of inorganic phosphorus per minute.

**List of Ingredients**

Grain Products, Plant Protein Products, Processed Grain By-Products, Animal Protein Products, Dicalcium Phosphate, Calcium Carbonate, Sodium Chloride, Hydrated sodium calcium alumino-silicate, L-Lysine, Egg Product, Potassium Chloride, DL-Methionine, L-Theanine, Ferrous Sulfate, Magnesium Oxide, Magnesium-Mica, Roughtage Products, Vitamin E Supplement, Sodium Selenite, Calcium Pantothenate, Zinc Sulfate, Strawberry Flavor, Saccharin Sodium, Betaine (hydrochloride), Manganese Sulfate, Zinc Oxide, Zinc Amino Acid Chelate, Selenium Yeast, Mineral Oil, Diatomaceous Earth (flow agent), L-Carnitine, Chromium Propionate, Niacin Supplement, Dried Aspergillus oryzae Fermentation Product, Choline Chloride, Dried Schizosaccharomyces pombe Fermentation Product, Manganese Amino Acid Chelate, Copper Amino Acid Chelate, Copper Sulfate, Cobalt Carbonate, Lactic Acid, Copper Chloride, Menadione Nicotinamide Bisulfite, L-Tryptophan, Vitamin B12 Supplement, Riboflavin Supplement, Essential Oils, Hemicellulose Extract, Vitamin A Supplement, Silicon Dioxide, Folic Acid, Pyridoxine Hydrochloride, Vitamin D3 Supplement, Thiamine Mononitrate, Natural Flavor, Potassium Iodide, Ethylenediamine Dihydriodide, Biotin, Dried Bifidobacterium longum Fermentation Product, Dried Enterococcus faecium Fermentation Product, Dried Lactobacillus acidophilus Fermentation Product.

**Feeding Directions**

Feed as the sole ration for pigs weighing more than 150 pounds.

CAUTION: Pigs fed Ractopamine Hydrochloride are at an increased risk for exhibiting the fatigued pig syndrome (also referred to as "slows", "subs" or "suspects"). Pig handling methods to reduce the incidence of downer pigs should be thoroughly evaluated prior to initiating use of Ractopamine Hydrochloride. Ractopamine may increase the number of injured and/or fatigued pigs during marketing. Not for use in breeding swine.

LIMITATIONS: Feed continuously as the sole ration to pigs weighing 200 pounds or more.

CAUTION: Follow label directions. The addition to feed of higher levels of this product containing selenium is not permitted.

*One unit of phytase activity (FTU) is defined as the quantity of enzyme which liberates 1 micro-mole of inorganic phosphorus per minute.

WARNING: This product, which contains added copper, should not be fed to sheep or related species that have a low tolerance to copper.

**S UR G E**

At 18.69% protein, Surge is a grower feed designed to get your project off to a rapid start. High palatability insures pigs will take right to it and perform at high levels. Can be fed 70lbs–200lbs depending on performance and individual needs of projects.

Protein: 18.69%
Lysine: 1.37%
Fat: 5.07%

**K R A V E**

At 16.01% protein, Krave has earned the reputation of being the best finisher feed available in the industry over the past few years. Not only from it's highly palatability from which it's name derived, but by promoting a natural body cover while maintaining muscle definition and bloom. Can be fed from 125lbs to show.

Protein: 16.01%
Lysine: 1.85%
Fat: 5.45%

**M E L T D O W N**

Melt Down was specifically formulated for those extremely hard muscled projects that Krave just won't quite soften up. Melt Down promotes more body and a softer look maintaining daily rate of gain. Can be fed 175lbs to show depending on individual needs of project.

Protein: 12.10%
Lysine: 0.78%
Fat: 4.39%

**K R A N K ' E M**

Krank 'Em is the newest addition to the ShoMax feed program. A complete Paylean feed designed to promote mass and power with a more natural look. Krank 'Em can be fed as a sole ration or mixed with other ShoMax feeds for desired results. Krank 'Em is safe and customer friendly. For projects from 200lbs–280lbs.

Protein: 16.13%
Lysine: 1.05%
Fat: 3.50%

---

**F R E S H N U P**

A supplement to add bloom and eye appeal to your project. Targeted for that endpoint show and to aid in wear and tear of hauling projects on jackpot circuits. A must use product when holding a project. 'Ever wonder why some pigs just have that freshness, younger look with indescribable bloom? Chances are you have just seen a pig that has been fed Fresh N Up' Bobby Listen

5 lb bucket
30 lb bucket

**B A C A T T A C H**

5 lb bucket

**S H A P E E M U P P L U S**

A unique blend of amino acids and Paylean to improve muscle shape, definition and mass with a more natural appearance. 'Finally a product with Paylean that promotes mass and power that protects your project from all the side effects usually seen with other Paylean products. Safe and easy to use. Shape 'Em Up Plus is the answer when fitting your next champion' Bobby Listen

3 lb bucket
20 lb bucket

**S T A N D S T I L L**

A daily supplement to promote appetite, proper function of digestive system and enhance immune system. Probiotics ensure proper function of the digestive system while essential vitamins and electrolytes aid in hydration for peak performance of your project. 'If you have ever fed show pigs, you know your gonna have appetite issues or pick up a bug now and then. A scoop a day keeps the vet away' Bobby Listen

40 lb bag

**P U R P L E R A I N E N HANCED**

High energy show time electrolyte. Purple Rain enhances that must have fresh, crisp look to your project on show day maximizing the top shape of your project. Proper application of Purple Rain by following directions will ensure all the muscle expression your project has to offer. 'In today's competitive show environment a fresh look and big top shape is a must. Let Purple Rain, rain down on your competition' Bobby Listen

5 lb bucket
4 oz bottle

**B I R T H R I G H T**

An alternative to fat supplements to add cover to your project. Known as the gold standard of milk replacers for baby pigs, Birthright also has become one of the best supplements for adding cover and bloom to your projects. Many other added fat products on the market run the risk of stalling your project and lowering consumption resulting in less rate of gain. Birthright like in baby pigs, promotes consumption and growth while adding cover without stalling projects

25 lb bag
25 lb buckets

**E L E C T R O L Y T E S**

A daily electrolyte to promote hydration for show pigs, cattle, sheep and goats. Our electrolyte promotes a fuller look to muscle shape and aids in stressful climate conditions. A very safe, effective and economical product.

---

For the past 25 years Bobby Listen has been developing and judging some of the best show pigs in the country. His friends and peers say he has "the eye" and knows what a show pig needs to go from good to great which has played a part in being asked to judge the biggest state fairs and major pig shows across the nation. The success that Bobby has experienced in his career as an ag advisor at El Reno public schools speaks for itself and many believe can never be duplicated. Bobby has poured all of those years of experience into a line of show pig supplements and teamed up with Raico Show to bring your projects the best products for the best results.
